He was lifted on the crest of a big wave and tossed senseless on a rock.

The senseless of production. The bureau worked hard in speeding up transportation facilities and did prevail upon many farmers to get their products to the market. However, many farmers holding potations of higher prices did not or would big wave and tossed senseless on a rock. to get a reaction from the suggestion. Charles F. Murphy and other Tammany leaders are sorry now they did not run Al for Mayor. They have not the slightest idea now that a straight out Tammany man could be elected Governor, but they would like to hear what is said about him in that connection.

"In my judgment," said Chairman Harris, "the one man whose knowledge of State affairs, whose sympathiese withthe people have always been the keen-est, whose courage is unsurpassed and whose ability is unequalled among our that farmers in Essex county are asking public men in this State is the President

Not Taking Sides.

Mr. Harris then explained that while ne had this high regard for Al Smith he did not consider him an available candidate because of the prejudice that ex-isted. At present the State chairman date will be he replied in general terms: "It will not be a man who cannot lay aside his personal ambition in order that he may devote his entire ability to the service of the State. It will be a man who will not use our war crisis as a means for personal advancement.

This indicates the sort of attack that the Democrais intend to make upon Gov. Whitman, accusing him of an overweenthe Democrats intend to make upon Gov. Whitman, accusing him of an overweening ambition. It is known that the State chairman believes the candidate will be an up-State man. He has taken no part in the conferences of the Utica group, but has been watching with considerable interest the development of their plans. Members of this group are opposed to any New York city man, particularly William Randolph Hearst, but at the same time they fear the editor and so far have not been able to discover any practical way of opposing him, if he really wants the nomination. They might defeat him at the primaries, but where practical way of opposing him, if he really wants the nomination. They might defeat him at the primaries, but where would the candidate come out if William Randolph should close up his pocketbook and he hostile or even lukewarm

THE WEATHER.

For eastern New York, probably row fair; moderate south winds.

For New Jersey, presship light rais and cooler to-day; to-morrow fair and cooler; genile to southeast winds.

For northern New England, generally fair to-day; fair and colder to-morrow; moderate south winds.

For southern New England, partly cloudy and somewhat cooler to-day and to-morrow; moderate west to southwest winds.

For western New Tork, partly cloudy and somewhat cooler to-day; to-morrow fair; as winewhat cooler to-day; to-morrow fair; as continued cool, row fair: moderate south winds.

WASHINGTON, April 7.—Two fairly strong anti-cyclones dominate the weather used of the Mississippi, one over the Canadian Maritime Provinces and the other over the upper Missouri Valley, Between these two anti-cyclones a trough of low pressure has caused numerous rains in the south Atlantic and east Guif States, the Chio Valley and the lake region. In the South, especially along the east Guif coast, the rains have been unusually heavy and they have been attended by severe thunderstorms. The temperature changed have been quite irregular in the areas of rainfail. It is slightly cooler, and in Atlantic coast districts slightly higher temperatures prevail. paratic coast districts slightly higher temperatures presail.

Showery weather will prevail in the next forty-sight hours in Atlantic coast districts south of New England, also in the cast Gulf States and Florida. A periol of cooler teather will set in over the lake region and Ohio Valley Monday, which will bring somewhat lower temperatures in Ajiantic coast districts Tuesday.

intention at this time of being a candi-date for the nomination), and secondly as recorded by the official thermometer, is shown in the annexed table: 1918, 1917. 42 42 6 P. M. 45 41 8 P. M. 48 48 12 Mid.
